Jan. Agent of the Month

Matt Pryor

Matt was born and raised in home of Carlsbad Caverns. It on your bucket list to see.

Carlsbad, New Mexico; the is definitely something to put Matt graduated from Eastern

New Mexico University with a Bachelor of Fine Arts (BFA) degree in Interdisciplinary Arts with a minor in Animation, Computer Graphics and Telecommunications. As you can imagine he is very talented at drawing and loves to paint with water colors as well as digital painting and ink sketching. I asked him when he moved to Austin and why. June of last year he decided to take his chances with a fresh start here in Austin. He started working here at Harte-Hanks in September and joined us in CHT in October. He's a very humble guy who doesn't like bragging about himself. (my observation) I asked him if he had any tips for us. He said, "research, notes, move, record." His goal

is to complete 12 delinks before noon and the same after.

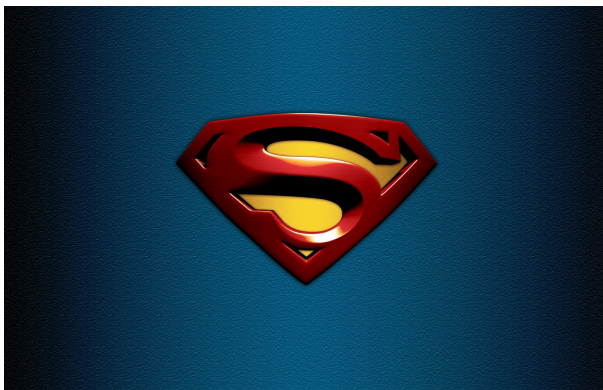

New Supervisors

In Jan. we said goodbye to Robert Poklemba and welcomed Addam Gruetzmacher, who came to us from Revenue Services. Addam was born in Blue Island Illinois, but raised in Michigan. He attended Northern Michigan University, where he sought a degree in Elementary Education, until he was kicked out for being too wild. He moved to Austin in 2007 because of his love for music. He loves to play guitar. He owns three guitars, Gibson SG, Fenderstrat. and a Dauphin. He has no favorite type

of music. He likes to play all kinds depending on his mood and company at the time. He started working for Harte Hanks in November 2007. X-Box was the first account he worked on as an agent for a short period, then he moved over to FedEx. He started on the Domestic L.O.B., which is now part of Revenue Services. He was an agent then a lead and finally a supervisor for a total of six years before taking on Revenue Services. About a year later is when he took this opportunity to come to CHT. I asked him what he likes best about CHT and he said, "The challenge of learning a new L.O.B." He also said he doesn't have an all-time favorite movie, but right now he really enjoys watching "Hot Fuzz", a British comedy. His favorite color is Green, he loves to sing Karaoke and read anything about history.

About a week later we welcomed a second supervisor, Jon McClain, who came to us from outside Harte Hanks. Jon was born in Abilene, TX but lived all over the country as an Airforce brat. His favorite place to live, and where he calls “home” is North Carolina. He loves the Blue Ridge Mtns., UNC Tarheels, and the Carolina Panthers. His favorite color is blue, loves to watch documentaries, especially history. His favorite movie is To

Kill a Mockingbird. He loves music from the 70’s and 80’s, reading historical biographies, and playing with his basset hound and two mutts. He is writing a book about J.F.K.’s administration and assassination. He says it will be so big it just might rival the size of “The Affordable Care Act”. All I can say is WOW! that’s a huge book. Probably the most interesting thing about Jon is that he like to investigate the paranormal. He has experienced some pretty scary/crazy stuff. Finally, his favorite quote is from President Bill Clinton, whom he did get to meet.

“Strength and Wisdom are not opposing values.”

EVENT

Join us for “Happy Hour” as The Common Interest Karaoke Bar & Grill.

When: This Friday March 11th

Address: Spectrum Center, 8440 Burnet Rd, Austin 512-453-6796
